

*How the LIVESTRONG Fertility
Discount Program Changes Lives*

FERTILITY OVERVIEW

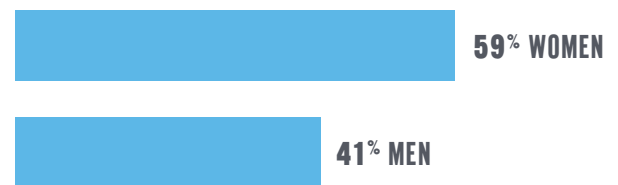

\$4.26M

THE LIVESTRONG FERTILITY discount program helped **940** clients save more than **\$4.26** million in fertility preservation expenses in 2014. With the help of partnering fertility centers and EMD Serono Inc., we helped cancer survivors access critical sperm, egg and embryo preservation services.

AGE

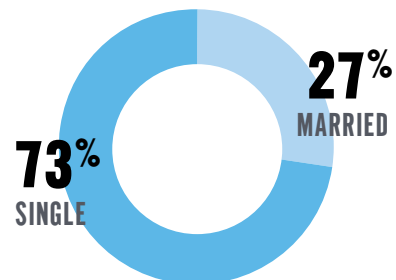

GENDER

We provide fertility preservation information and services to both men and women. In 2014, the program helped **373** men and **569** women access discounted rates for their fertility preservation needs.

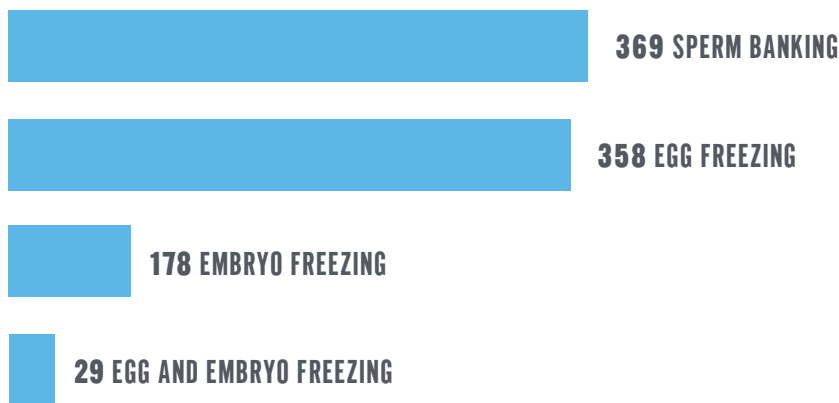

MARITAL STATUS

Our fertility discount program helped more than **600** unmarried individuals access fertility preservation services, allowing them to make future family-planning decisions on their own terms.

FERTILITY PRESERVATION OPTIONS

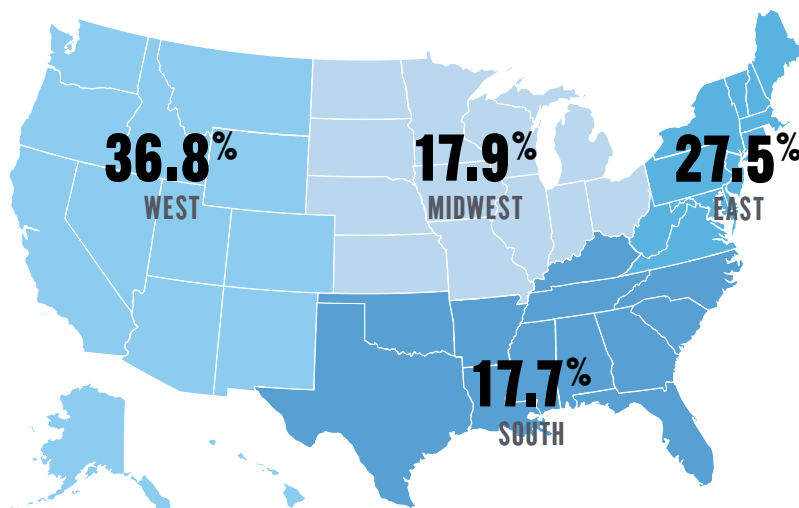

We helped facilitate **369** rounds of sperm banking, **358** rounds of egg freezing, **178** rounds of embryo freezing and **29** rounds of combined egg and embryo freezing.

Our fertility preservation discount program helps to ease the financial burden of common fertility preservation procedures for people affected by cancer. Procedures such as sperm banking and egg and embryo freezing allow clients the opportunity to become parents after cancer.

GEOGRAPHIC AREA

We provide information about family-building options across the United States.

We're dedicated to providing reproductive information and financial support to cancer patients and survivors whose medical treatments present the risk of infertility. **Learn more and join the program at LIVESTRONG.org/Fertility.**
